“Adapting to the agile world of work for Youth”

I am excited and looking forward to engaging with young people across the Sub-Saharan Africa region at this year's All4Youth CEO & Youth Connect Annual Webinar! Together with other CEOs from our partners, namely: Adcorp Group, ABB, Microsoft, Nielsen, as well Publicis, we will explore and engage with young people around navigating modern workplace challenges, improving their skills and sharing future opportunities. As global leaders, we believe our region's economic growth and success is interdependent on young people who are innovative, determined and possess the requisite corporate and entrepreneurial skills.
